Well?
1
They're pretty much the same, but Pankui's is slightly longer.
This's absurd.
I think.
Long
2
I just realized this now, but you guys...
4
...are like day and night.
As in, we're pretty much the same, but the daytime lasts slightly longer?
What are you talking about?
5
Today is the Autumnal Equinox!
I thought it was going to be a riddle.
Just admit defeat already!
